# Annex V Status Report Action List and Related Items

Kenneth L. Heitner, Coordinator

First US-China WG Meeting

November 5, 1998

# History of Annex V

---

- Negotiated - 1997
- Signed - November 1997
- First Meeting - December 1997 (US)
- Second Meeting - August 1998 (China)
- Coordination - November 1998 (US)

# Outline

---

- Technology Transfer and Cooperation
- Implementation
- Environmental Protection
- Development of Opportunities for Small Businesses
- Improved Communications
- External Financial Support

# Technology Transfer and Cooperation

---

- This area has the most near term potential
- A number of public domain standards, procedures, and reports have been identified
- We will send this material later this month
- Opportunities to visit US labs performing testing work exist
- Many Action List Items still need to be discussed

# Technology Transfer and Cooperation

---

- Better coordination is needed to effect a potential exchange of personnel in research areas of interest
- In some areas there has been little progress because communication needs to be improved

# Implementation and Environmental Protection

---

- Potential actions identified in Beijing meetings
- Little or no progress to date
- Will reevaluate and take action over next month

# Creation of Opportunities for Small Businesses

---

- Encouraged US small businesses to participate in “2nd Beijing International Presentation Seminar on Electric Vehicles & Substitutional Fuel Vehicle Technology
- Invited MOST representatives to participate in NAVEI meeting in US (Arizona)
- Coordinated with Dr. Wen Xuhui on visit to Solectria

# Improved Communications

---

- Communications need to be improved
- Reorganization of MOST has slowed communications
- DOE Annex V Team would appreciate more frequent “written” communication and feedback
- DOE Annex V Team is concerned about reliability of e-mail versus fax messages

# External Financial Support

---

- China's electric vehicle program demands considerable resources
- China has to prioritize this programs resource needs
- A funding strategy has to be developed to approach international funding organizations
